MAG7

Advanced Magnesium Support for Your Muscles, Mind, and Metabolism.

Did You Know...

Magnesium is involved in over 300 vital processes in your body, yet most people don't get enough from diet alone. Low magnesium can show up as muscle cramps, fatigue, poor sleep, headaches, and stress overload. A multi-form magnesium complex like MAG7 helps your body absorb what it needs, where it needs it, supporting energy, mood, muscle recovery and more.*

The HealthSource Difference

Most magnesium supplements are just one form. MAG7 gives you seven. Each is chosen to support different parts of your body, such as muscles, nerves, heart, and energy. Plus, it's enhanced for better absorption, so you get more of what your body needs, right where it needs it.

MAG7 is great for anyone dealing with muscle cramps, low energy, poor sleep, stress, migraines and headaches, chronic pain, and active lifestyles.

What is it?

- 7 Forms of Magnesium.*
- Humic & Fulvic Monatomic Blend.*
- Gentle, highly absorbable formula.*
- Calming & Recovery Support.*
- Clean label (NonGMO, Gluten & Dairy Free.)*
